

**Automation and Technology:
Toward Prosperity or Rising Inequality?**

**June 28th, 2022
15:00 – 17:00 pm
Online via Zoom**

Technological change is accelerating the pace of automation enlarging its scope. Robots are entering into new areas as they become more flexible and interactive. And software applications summarized under the term “Robotic Process Automation” are being implemented widely to automate repetitive administrative work. By means of sophisticated AI software, automation is also affecting the work of high-skilled professionals in fields such as journalism, production management, and medical diagnostics.

Seen by some as the road to universal prosperity, automation is seen by others as a mixed blessing. Recent studies on labor market effects in the USA have shown a strong correlation between automation and a polarization between rich and poor. Some sceptics not only point to ambiguous employment effects, but also to the peril of devaluing human tasks and work autonomy.

At this event, leading academics from Germany and the US will present recent research results. The panellists will discuss the relationship between technological change, inequality and politics including what conditions must be met to benefit from the progress in automation technology, while avoiding its pitfalls.

PROGRAM

- 15:00** **Welcome and Introduction:**
Prof. Dr. Michael Dowling, University of Regensburg and
MÜNCHNER KREIS
Dr. Florian Butollo, Weizenbaum Institute
- 15:15** **Key Note 1:** Prof. Daron Acemoglu, MIT
- 15:45** **Key Note 2:** Prof. Jens Südekum, University of Düsseldorf
- 16:15** **Panel Discussion:**
- Prof. Daron Acemoglu, MIT
 - Dr. Katharina Dengler, Institute for Employment Research (IAB)
 - Prof. Anke Hassel, Hertie School of Governance
 - Prof. Martin Krzywdzinski, Helmut-Schmidt-University Hamburg,
Director of the Weizenbaum Institute
 - Prof. Jens Südekum, University of Düsseldorf
- 16:50** **Conclusion**
- 17:00** **End**

General Information

Automation and Technology:

Toward Prosperity or Rising Inequality?

June 28th, 2022

Online-Event

Organizer: MÜNCHNER KREIS e.V.
Tal 16, 80331 Munich, phone +49 89 223238,
office@muenchner-kreis.de

Registration: Please register on our homepage www.muenchner-kreis.de
by June, 28th, 2022

Virtual Participation fee: free of charge

Cancellation: To cancel your registration, Cancellations are free of charge until one day before the event, after that the participant bears the booking fees; alternatively, an agent can take the place free of charge, please contact us in this case at office@muenchner-kreis.de.
